EDUCATION

UNIVERSITY OF CEBU – BANILAD CAMPUS

Bachelor of Science in Information Technology

Cebu, Philippines

Graduated June 2026

Academic Honors: Dean's Lister: AY 2022–2023 (1st & 2nd Semester), AY 2023–2024 (1st Semester)

Relevant Coursework: Database Systems, Systems Architecture, Web Application Development, Software Engineering

WORK EXPERIENCE

N-Compass TV (NCTV)

Cebu IT Park, Philippines

Software Engineer Intern (Full-Stack & Internal Tools)

Jan 2026 – Jun 2026

- Collaborated in an Agile team of 4 developers and 1 Tech Lead to engineer core features for an AI-powered B2B lead intelligence platform using FastAPI (Python), Angular, and Supabase (PostgreSQL).
- Translated executive product vision from CTO briefings into technical user stories, database table schemas, attribute dependencies, and UI/UX sprint tickets.
- Developed Plane Sync, an internal developer tool built with Streamlit and the Plane REST API, featuring an LLM-assisted (Gemini Flash) ticket drafting engine and real-time Gantt timeline tracking.
- Engineered asynchronous data ingestion pipelines using Bright Data and SerpApi, replacing Apify to cut API operating costs and scale multi-channel business profile scraping, reducing scraping overhead by ~50%.
- Implemented post-analysis background PDF generation, resolving asynchronous race conditions, streaming assets directly to AWS S3, and providing secure access links for dashboards and CSV exports.
- Authored stateful integration test suites in Postman based on OpenAPI/Swagger specs, chaining dynamic IDs and environment variables across multi-step CRUD lifecycles with strict response time (<500ms) and schema validations.
- Conducted pull request (PR) code reviews and investigated frontend performance bugs across staging environments, resolving button debouncing issues and blank-screen view state crashes.

PROJECTS

SMARTQUEST — GAMIFIED LMS

2024 – 2025

Project Lead & Full-Stack Developer

- Engineered a gamified cross-platform LMS for Grade 4 mathematics, developing a Godot Android application and React/TypeScript web portal backed by Node.js (Express), Firebase (Auth, Firestore), and PayMongo API.

ONLINE ENROLLMENT SYSTEM

2024

Full-Stack Developer

- Engineered a role-based course enrollment system utilizing C#, Razor Pages (CSHTML), and MySQL.

LEADERSHIP & ACTIVITIES

PHILIPPINE SOCIETY OF INFORMATION TECHNOLOGY STUDENTS (PSITS)

Cebu, Philippines

Student Volunteer

2023 – 2025

- Awarded Certificate of Appreciation (2025) for dedication in supporting campus tech activities and student workshops.

SKILLS & CERTIFICATIONS

Programming & Web: Python, TypeScript, JavaScript, C#, Java, SQL, C, HTML5, CSS3, FastAPI, Angular, React, Razor Pages

Databases & Cloud: Supabase (PostgreSQL), MySQL, MongoDB, AWS (S3), Docker, Render, Git/GitHub

Testing & Tooling: Postman (API Test Automation), Swagger/OpenAPI, Streamlit, Bright Data, SerpApi, Figma

Certifications: **CCNA:** Switching, Routing, and Wireless Essentials — Cisco (2025); Entrepreneurship for All — Erasmus+ Programme (2022)
